

ASSURING THE SAFETY, QUALITY & EFFICACY
OF VETERINARY MEDICINES

Joint VLA, VMD, GVS and AGV Conference 2010

22—24 SEPTEMBER
UNIVERSITY OF WARWICK

The three day programme will include a workshop on

21ST CENTURY INFECTION MANAGEMENT

on

WEDNESDAY, 22 SEPTEMBER

Key speakers:

- Peter Jones** - British Veterinary Association view
- David Mackay** - Requirements for authorisation of antimicrobials in the EU: VICH* and CVMP* guidance
- Peter Silley** - The research and industry perspective
- Sally Argyle** - Clinical aspects of antimicrobial resistance

Open thought provoking workshop-based discussion:

1. Do the available veterinary medicines and associated product literature fulfil the clinical needs of vets and farmers?
2. How can research help us to evaluate veterinary antimicrobials to better fulfil the objectives of responsible use?
3. Should dosing regimens be primarily designed to cure disease or to limit the development of antimicrobial resistance?
4. The role of factors such as vaccines, biocides etc. which influence the control of disease and the development of antimicrobial resistance in the field.

*VICH—International Co-operation Harmonisation of Technical Requirements for Registration of Veterinary Medicinal Products
*CVMP—Committee for Medicinal Products for Veterinary Use
